Emomalii Rahmon*

Approved by the Order of the Government of the Republic of Tajikistan of July 3, 2014 No. 428

The state program of development and implementation of information and communication technologies in the Republic of Tajikistan for 2014-2017

1. Introduction

1. In the modern promptly developing world functioning and development of the state is impossible without application of modern means and technologies of management, communication and communication. As show numerous researches, growth in volumes of information circulating in the field of management shall be based on single information base and requires timely conversion. In these conditions management without application of modern means and methods of processing, transfer and information representation cannot be effective.

2. State policy in the field of use of information technologies in public administration is intended to provide increase in efficiency of public administration, justification of the decisions prepared on unified information basis, coordination of activities of public authorities for creation of the state information systems and increase in effectiveness of finance and other costs in this sphere.

3. The created purposes of state policy in the field of development of information technologies determine need of the solution of tasks for plot area of the information society consisting in forming of priorities of development of information technologies in the ministries and departments, creation of the corresponding databases and methods of their use for the purposes of management with the subsequent creation of services for servicing of citizens and the organizations. First of all, these purposes after creation of internal databases require creation of interdepartmental network of data exchange between the ministries and departments for the solution of the tasks set for them.

4. The state program of development and implementation of information and communication technologies for 2014-2017 (further - the Program) reflects development priorities in the field of information technologies of the republic in the Republic of Tajikistan and is directed to realization of state policy in this sphere according to strategic objectives of development of the Republic of Tajikistan.
